

Atty Docket No. JCLA7632

Serial No. 10/013,981

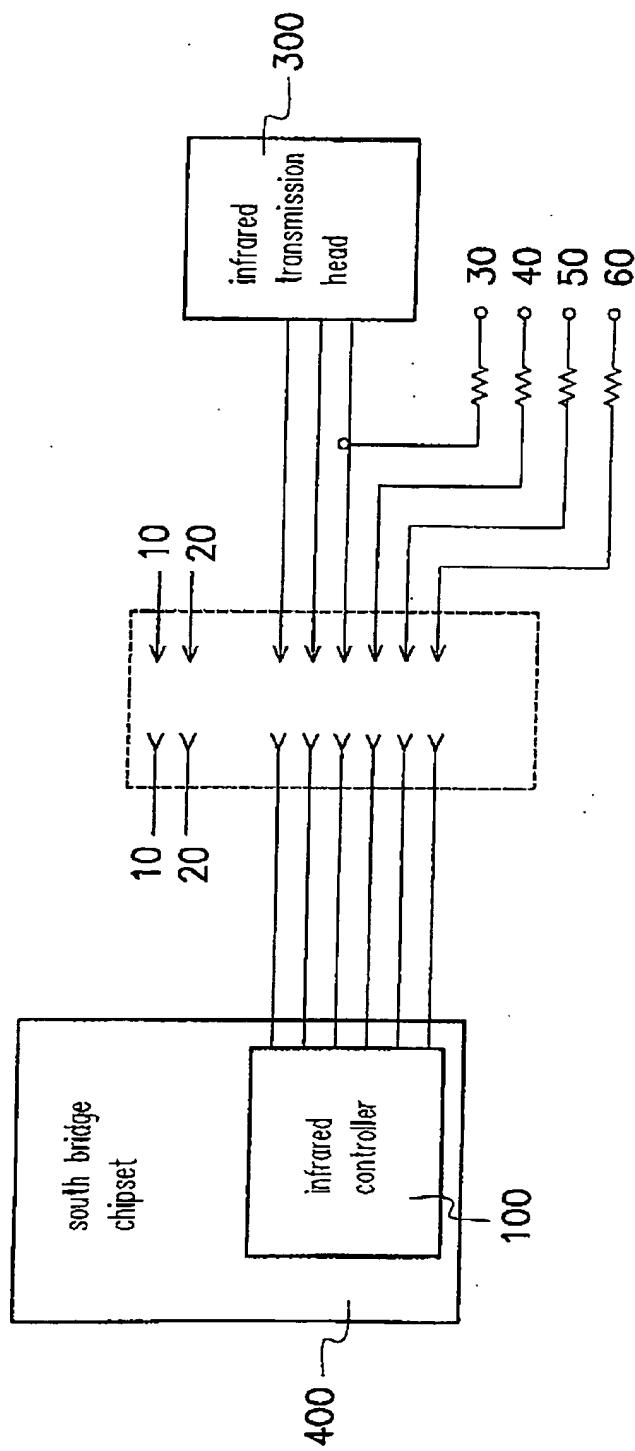

**In The Drawings**

Please amend Figs. 1, 2 and 3 in the drawings as shown in three separate accompanying pages, wherein Figs.1 and 3 are amended so that blank boxes in these two drawings are labeled. In addition, applicants found Fig.2 is mislabeled "prior art" because Fig. 2 and Fig.3 (the embodiment of the present application) are identical, and Fig.2 in the present application should be replaced by the Fig.2 in its corresponding Taiwan invention application with application number 90,125,507, which is received by USPTO as a certified copy of the priority documents. It is believed that no new matters is introduced in this replacement of Fig.2 because, in paragraph [0004] in the specification in the present application, there only discloses descriptions of reference numbers of 30, 40, 50 and 60 but has no any description of reference numbers 510 and 520. However Fig.2 in the corresponding Taiwan invention application with application number 90,125,507 discloses the reference numbers appear 30, 40, 50 and 60 but reference numbers 510 and 520 so that Fig.2 in the present application should be replaced without introducing new matter. Applicants respectfully submit that upon acceptance of the proposed amendment to Figures 1, 2 and 3 by the Examiner and allowance of this application, a formal corrected drawing will be submitted.
